The soldiers returning from overseas have a new religion. It is a religion based on disrespect for a coward. They hate a financial slacker just as hard as they hate a physical slacker. They also have learned to hate selfishness.

Lewis K. VanHooser arrived here Monday for a visit with relatives and friends. Mr. VanHooser is a member of the regular army and is stationed on the Rio Grand river, ninety miles south of El Paso, Tex. Will Keith, of Ft. Sill Okla., was the guest of Riddle Young and family several days last week. He will visit relatives near Haydenburg and other points in the county before returning to Ft. Sill. He has been in the service over two years, and expects to be ordered to France sometime in the near future.

Messrs. B. L. Quarles, D. B. Johnson, F. M. Anderson, R. C. Jones and J. E. Richmond represented Jackson county at the river meeting held in Nashville Monday. They report a splendid meeting, and are optimistic relative to the completion of the locks on the upper Cumberland. All the government is asking of the counties thro which the river flows, is that each county pay for any damage that may occur from the overflows where the locks are built. As the high of the water from the locks only reach twelve feet, the damage from the overflow in Jackson County, or in any other county along the Cumberland, would not be anything scarcely. Our representatives at the meeting assured the government officials that the damage from overflows in this county would be taken care of, and that any other provisions of the government would be met.

PUBLIC AUCTION

MYER
"Lucky Corner"

CARTHAGE, TENNESSEE

SATURDAY, MAY 17, '19

At 1 P. M. Rain or Shine.

The Myer "lucky corner" at Carthage, where the old successful Myer general store stood for nearly half a century.

This corner has carried the leading store on the Upper Cumberland for more one hundred years.

Four fair-sized country fortunes have been made by stores on this old corner.

The Myer store descended from father to son. W. E. Myer retired from business.

This store has been in existence fifty-seven years, forty-five years on the old "lucky corner."

Since its destruction by fire there is a real demand, because no similar store has risen to take its place.

Hundreds of old and loyal customers who have traded with this store all of their lives, and whose fathers before them traded here, can easily be held by men worthy.

This good will of a fine and loyal body of men will be a great aid to those taking the place of the Myer store on this corner.

The chance of a lifetime for honest and ambitious merchants.

The people are forced to send elsewhere for many of their everyday needs, because unable to supply them at home. This county is rich and prosperous. It is the sixth richest county in the State. Yet, since the burning of the old Myer store, there is not a single general store in Carthage, the county seat, carrying good and sufficient assortments of dry goods, clothing, shoes, hardware, groceries, furniture, stoves, etc., and there are only two stores carrying dry goods, clothing, shoes, etc., and only carrying hardware, furniture, groceries, notions.

Since the fire there is urgent need

For several stores carrying the common, everyday needs of the community.

For strictly retail grocery stores (there is only one strictly retail grocery store in the town)

For a modern well located up-to-date garage.

For a butcher.

For a restaurant.

For a wholesale grocery.

Carthage is not a cut-throat town. Merchants are fair to each other and make good profits.

Things have changed at Carthage.

An enormous amount of money is paid at Carthage for farm products. For example, one loose leaf tobacco warehouse alone has paid out to local farmers in the past four months over \$600,000 for tobacco. Two produce houses, a spoke works, and a large tobacco factory also pay out large salaries.

This money is poured out at the very doors of our merchants. Live stores can legitimately land a large amount of this money.

This Myer lot is situated on the corner of the public square and Spring Street, and is divided into several building sites on the public square and many cheaper building sites on Spring street. The Spring street sites are specially adapted to garages, retail groceries, restaurants and wholesale groceries.

Carthage has advantage of towns in this section in extra low competitive freight rates, because it is on both rail and river. Carthage is the head town of year-round slack water navigation on Cumberland river. No other competitive town above Carthage has these advantages. Carthage is a day and night electric light town. Electric current is sold manufacturers cheaper than steam or gasoline. The town is the seat of a fine County High School.

Famous Home of W. E. Myer Also to be Sold.

At the same time I will sell at auction my beautiful 11 room dwelling in Carthage and two fine building lots adjoining the dwelling. Has large lawn, twelve acres of ground, lots of big shade trees and beautiful flowers. (If you are a lover of nature, here on your own lot you will have hickory nuts, black walnuts, persimmons, mulberries, English walnuts, many kinds of berries, grapes of several varieties, a good bearing orchard, and another young orchard coming on.)

Plenty of room for your own cows, pigs, horses and chickens, in the heart of an up to date town.

A cistern as large as two ordinary cisterns. Two never failing wells. Two good wind mills, a water tank large enough for a small town, water piped all over the house, yard, garden and every lot on the place.

Hot and cold water, bath room and toilet.

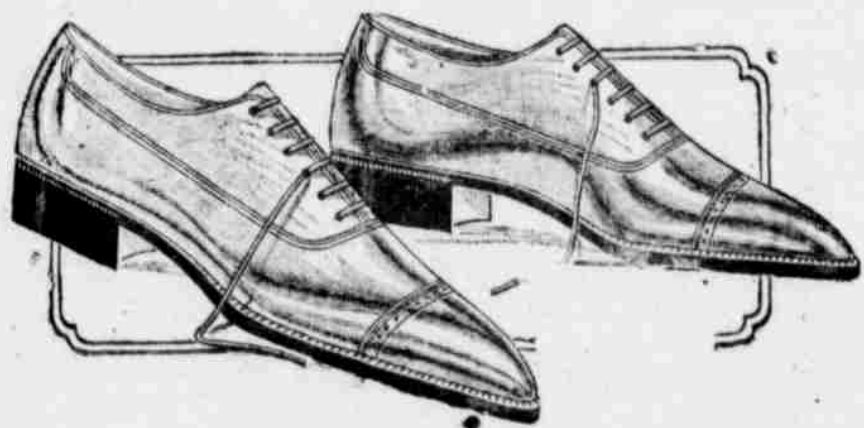

House lighted by electricity and heated by large furnace; an absolutely fire-proof room 20x20 feet, for the things you value highest. Speaking tubes all over the house; a large sleeping porch.

This dwelling site was selected because it commands one of the most beautiful views in America.

It is a sure enough real home, and such homes are not often on the market. Our son has moved to New York, and we want to be with him.

You can reach Carthage by Tennessee Central Railroad at noon, attend sale at 1 o'clock P. M., and return on the 4:30 P. M. train. TERMS, one-third cash, balance in one, two and three years.

W. E. MYER, Carthage, Tenn.
